

PARTNERSHIP PRINCIPLES – PSF GUIDANCE

The goal of the Paung Sie Facility is to contribute to a socially cohesive society – one that works towards the wellbeing of all, creates a sense of belonging, promotes trust, and offers everyone the opportunity to prosper and advance peacefully. The people behind the initiatives we support are key to achieving this goal, as are the relationships we build together.

We are pleased to share these Partnership Principles, in order to help clarify the kind of relationships we want to foster with our partners.

- Putting the people of Myanmar at the centre of our focus.
- Remaining committed to the highest level of integrity with mutual respect.
- Understanding the environment in which we operate and acting in order to minimise negative impacts and maximise positive impacts.
- Demonstrating flexibility and agility in responding to Myanmar’s dynamic and evolving context.
- Ensuring transparency through clear communication with clarity on roles and responsibilities, and through accountability to our partners and to the people and communities with and for whom we work.
- Promoting gender equality and social inclusion at all levels.
- Recognising the added value of both innovation in the Myanmar context and lessons from peacebuilding practice in other contexts.

These principles are reflected in the PSF Implementation Agreements with our partners and all forms of guidance and reporting.
